# ICONIC STYLE FOR YOUR HOME

Did you fall in love with one of LASVIT's iconic installations? It happens.

We've created a special selection of our most beloved pieces which have the power to transform any home.

We put you in touch with the best and brightest in contemporary design and work together to bring you the best bespoke solution which is just right for you – intimate, inspirational or chic, we bring it right to your doorstep.

LASVIT / WE ACCOMODATE ANY SPACE

# WE ACCOMODATE ANY SPACE

# WE ACCOMODATE ANY SPACE

Each part of your home has the hidden power to become unique. All you need to do is turn on the light.

Dine underneath Dancing Leaves, build a family tree with Herbarium, or impress your friends with a tall cocktail sipped under the mesmerizing Alice. Inspiration never came so easy.

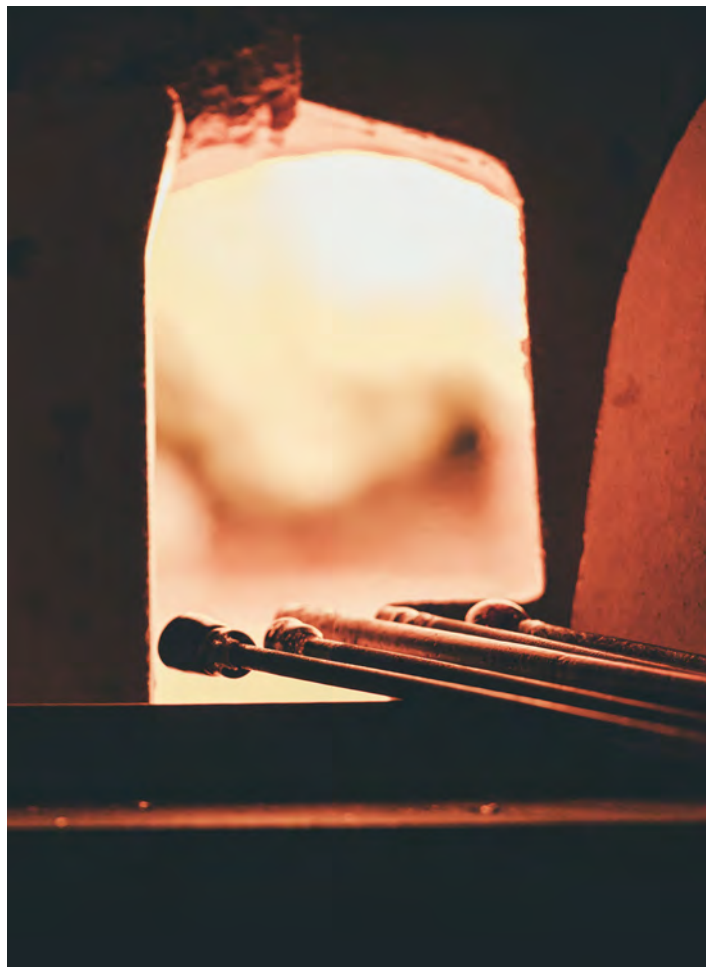

# THE TRUE STATE OF AN ART HANDLED DOWN BY GENERATIONS

# THE TRUE STATE OF AN ART HANDED DOWN BY GENERATIONS

Heritage matters. Thousands of years of practice have taught us how to refine rough mass into a material brighter than diamond.

# LASVIT CONCEPT HERBARIUM

# PRESERVED IN GLASS

# A TRIBUTE TO NATURE

The lighting installation Herbarium is our tribute to nature. LASVIT is able to cast any plants in glass – from family trees, to favorite flowers – and make everyone their very own and personal herbarium.

# GROW YOUR OWN GARDEN OF GLASS

Our herbarium conserved a typical Bohemian meadow, and the glass components were created from flowers and tree branches growing just near our glassworks. What we present is the Czech floral variety, but this is not a limit. You can inspire yourselves and grow your own garden of glass. No two flowers in the world are the same, therefore each component we create now or in the future will be a unique piece.

What flowers will you pick to preserve for future generations?

# PRESERVED IN GLASS

A special glassmaking technique enabled us to imprint any flower in glass. Dry flowers are poured over with molten glass. During the process, flowers turn into ashes, but their imprint remains captured in glass. This way it is possible to create a glass herbarium which time will never wither.

## CONCEPT

### ALICE

LASVIT CONCEPT / ALICE / STORY

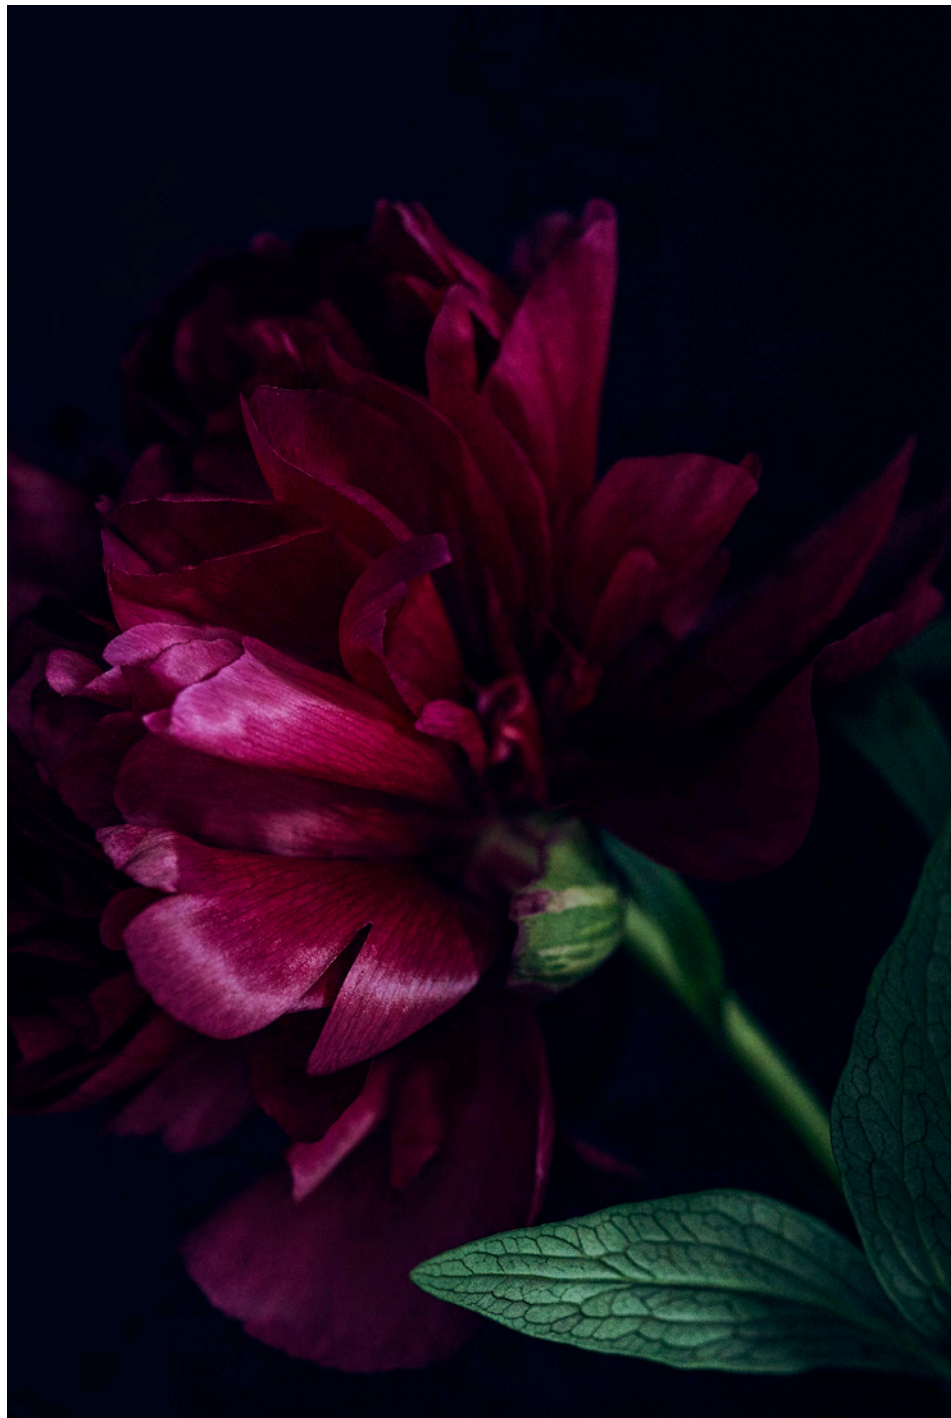

# LET YOUR HOME BLOSSOM

# THE UNIQUE POWER OF FLOWERS

Since time immemorial, the fragility of flowers has symbolized peace, love, and understanding. These values must be preserved and protected so that they may shine bright and fill the world with their ephemeral light.

Alice is just such a perfect blossom – fragile, original and unique, it lights up any interior with a warm and compassionate glow.

# THE UNIQUENESS OF NATURE

Glass is like nature itself - organic and unpredictable. Each leaf and tree is unique in its own right. Bringing these singular optical properties of glass to Alice conjures an experience which makes one feel like they are in the world of Alice in Wonderland.

How far down the rabbit hole will you go?

CONCEPT  
DANCING  
LEAVES

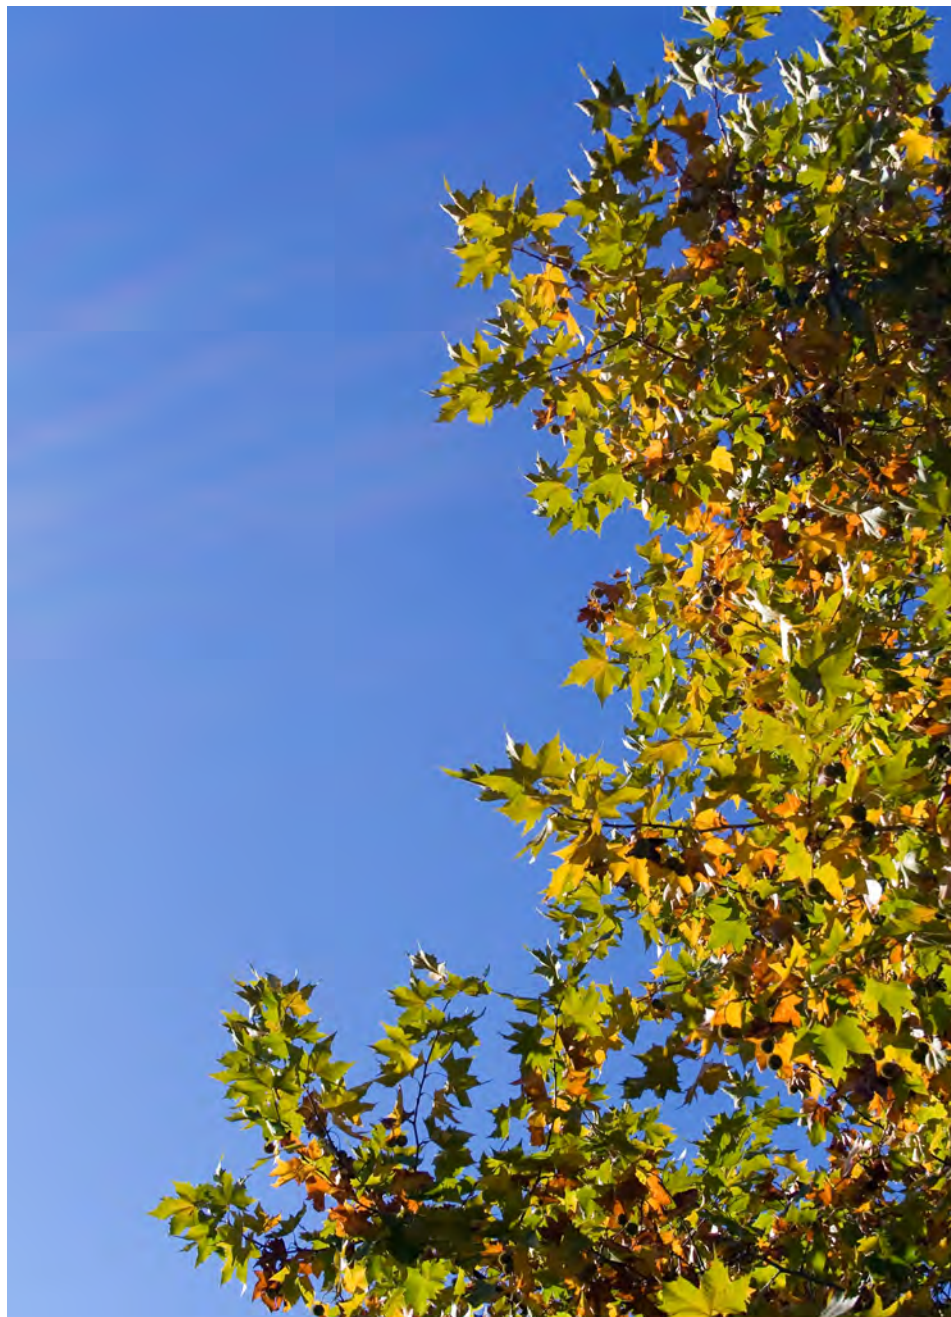

# INSPIRE YOURSELF WITH A FRESH BREEZE

# A DROVE OF LEAVES

Nature has always been difficult to grasp. Catch the wind, halt the setting sun – these are impossible feats. But now, cutting-edge glass-making technology is able to freeze nature in place for all to see. The Dancing Leaves installation represents just such a symbiosis between the natural movement and state-of-the art design.

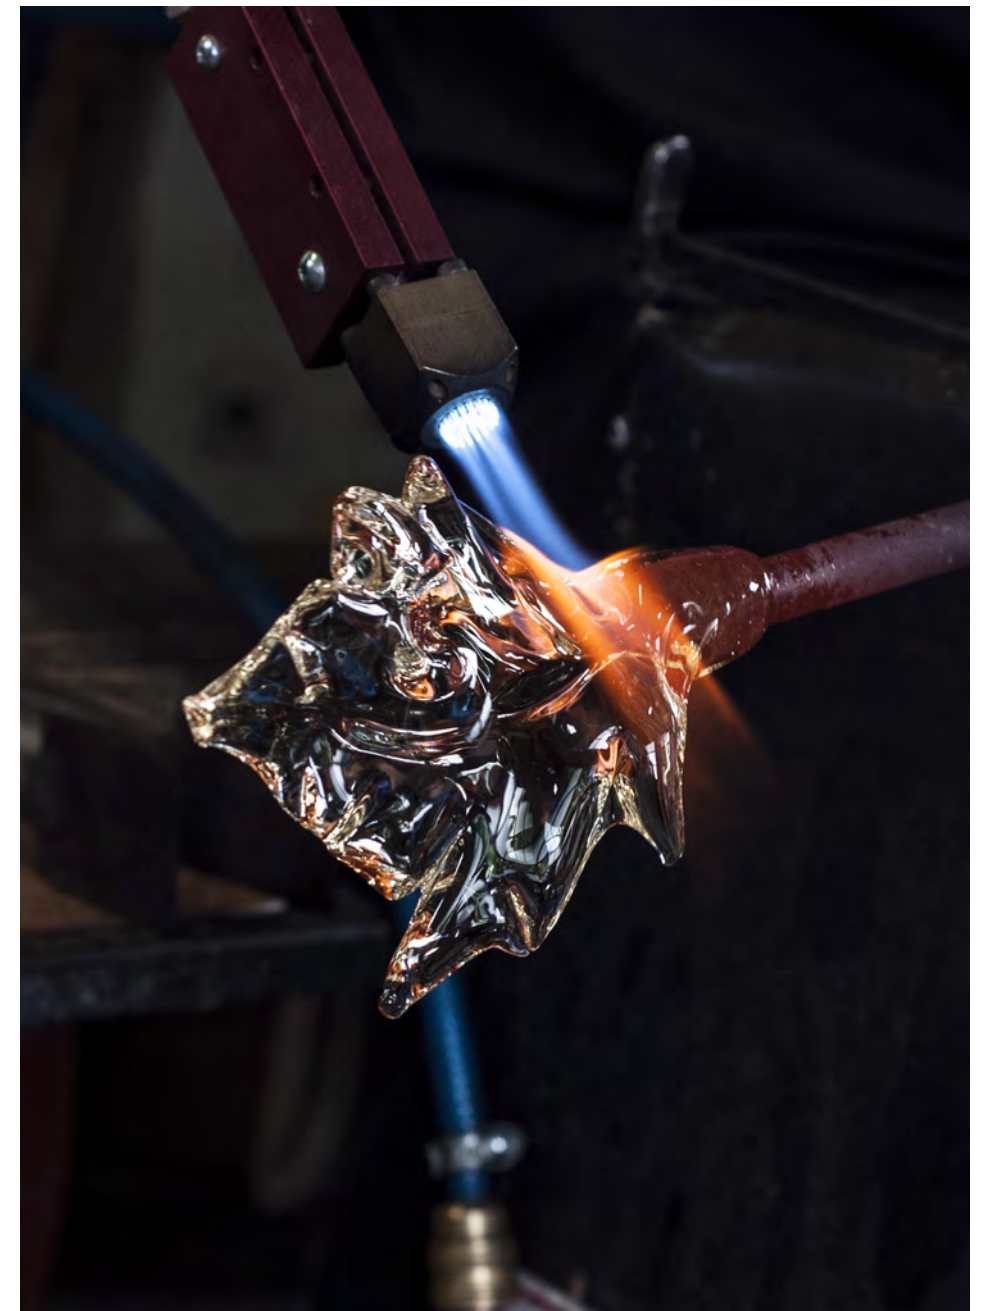

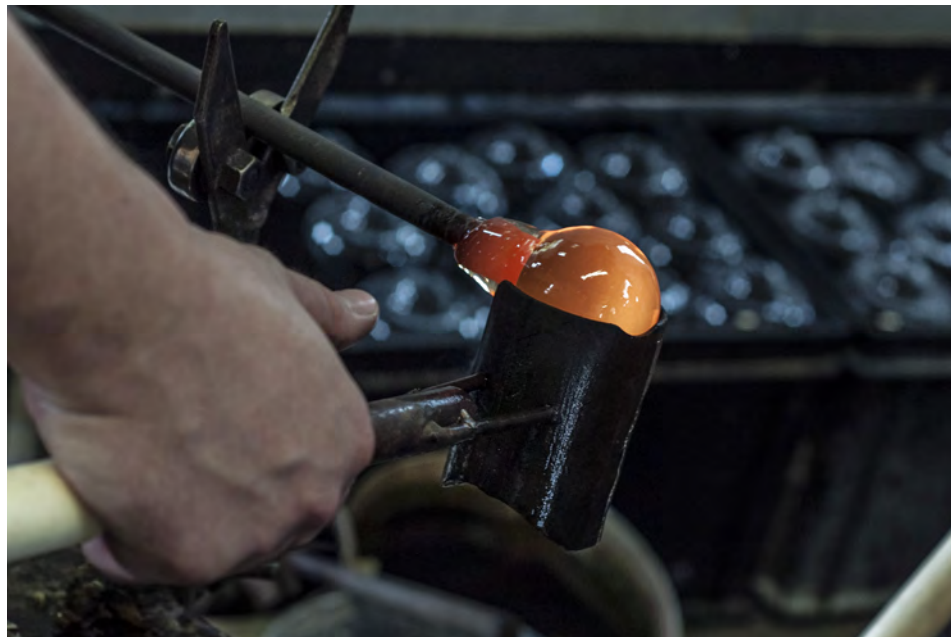

Now, you can capture and keep that moment when a sudden gust of wind scatters a drove of plane leaves. It is as if the approaching winter froze them in their perfect place, forever suspended in the space of your home.

# HANDSCULPTED ORIGINALS

Dozens of tiny, meticulously rendered originals, frozen in time and space. Each handsculpted by a master glassmaker. From a grain of sand to one of a kind leaf of glass.

# LASVIT CONCEPT MIDSUMMER

LASVIT CONCEPT / MIDSUMMER / STORY

# A SYMBIOSIS OF MATERIALS

# A MIDSUMMER DAY'S DREAM

Like a summer's afternoon, this wreath buzzes with myriad shapes, sounds and colors, combining individual elements in novel and unusual ways. This hanging talisman to light, bloom and the creative side of nature is the perfect inspiration for creating something fresh and daring.

We worked to capture the creative juices in our iconic piece Midsummer which pairs warm hues with cold surfaces, wreathes metal with fragile glass and meshes dark boughs with bright blossoms.

# TO EACH THEIR OWN

Midsummer is made of free-blown glass which allows for various options and custom processing. The individual components are plated with multi-colored metals, adding a range of diversity to an already complex form. This unique piece combines delicate glass with a robust but fine metal frame to weave a wreath of stunning beauty which will make any space come abuzz.
